Imperial L - 9' 10" | W - 2' 0" | H - 1' 5½"

Fixing centres & method

1710mm (5' 7½") x 500mm (1' 7½")

4 no. sleeve anchors (two per base)

Approx weight

142kg

Foundation

2 no. pads 400 x 700 x 400 mm in C20 concrete (recommendation only)

Handling

Please observe health & safety lifting guidelines. A fork lift or crane will be required for off loading and positioning of items

Maintenance

Depends on usage and position. All elements will require cleaning annually. Timber elements should be treated every other year if coated. Galvanised and powder-coated mild steel only require maintenance if damaged.

*Please note that when a powder-coat is applied to a hot dip galvanised surface pinholing can occur in the surface finish - this is not considered a defect.
